

# Barômetro

Dobra Montanha

Three identical barometer templates are arranged vertically. Each template consists of a vertical scale from 0 to 10, with a color gradient from red at the bottom to blue at the top. The scale is divided into two sections: the top section (0-10) is associated with a sun icon, and the bottom section (0-10) is associated with a rain cloud icon. The sun icon is positioned to the left of the top section, and the rain cloud icon is positioned to the left of the bottom section. The scale is marked with numbers 0 through 10 on both sides.
