

Ilusão o vermelho é escuro ou claro

The worksheet consists of three identical rows. Each row is designed to demonstrate a color illusion. It begins with a sequence of vertical bars: blue, yellow, and white. Each bar contains a pair of scissors icon, indicating where to cut. The bars are arranged in a pattern that creates a gradient of perceived color. An arrow points to a solid red bar on the right side of each row. The perceived color of this red bar changes from dark red in the top row to a lighter red in the middle row, and to a very light red in the bottom row.
